

Oh How I Love You (Como te Quiero)

duet with John Arthur Martinez

writers:

Tony Perez, John Scott Sherrill, Bob DiPiero

So once again here I am
Where the stars all come to shine
And the moon casts its magical ribbon of life on the sea
Tonight I will walk in the sand and let my mind go back in time
To a wonderful man and the words that he whispered to me

(chorus)

(John Arthur)

Como te Quiero, oh how I love you
Mi amore, oh my love
Por favor regres a mi
Please someday return to me

And so too late I returned just in time to find him gone
Well he waited and waited but finally gave up in the end
And now that the tables have turned
Leaving me all alone
It is I who must wait here and whisper these words to the wind

(Kim)

Como te Quiero, oh how I love you
Mi amore, oh my love
Por favor regres a mi
Please someday return to me

lead

(Kim)

Como te Quiero, oh how I love you
Mi amore, oh my love
Por favor regres a mi
Please someday return to me

Couldn't do Nothing right

written by: Gary P Nunn & Karen Brooks

The lamp is broken on the mantle
My mind is blown and I'm going away
It's getting more than I can handle
It's getting more than I can take

I couldn't stay here if I wanted
I couldn't stay here if I tried
You were always so disappointed
(In me)
I could never do nothin' right

I tried hard to make a living
To make our good life dreams come true
But you wanted more than I was giving
You wanted more than I could do

I couldn't stay here if I wanted
I couldn't stay here if I tried
You were always so disappointed
(In me)
I could never do nothin' right

I couldn't stay here if I wanted
I couldn't stay here if Itried
You were always so disappointed
(In me)
I could never do nothin' right
(In your eyes)
I could never do nothin' right

Enough Heart Left to Break

written by: Kim Carson & Larry Parcell

I didn't know I had enough heart left to break
I thought I'd had more hurt than one poor heart could take
I thought I could love you just a little
But that was my mistake
I didn't know I had enough heart left to break

My hearts been torn up
It's beaten and bruised
It's been battered and tattered
And shattered right into
I know love s a gamble, its a roll of the dice
But it's not so bad to loose
If you don't pay the price

(chorus)

I didn't know I had enough heart left to break
I thought I'd had more hurt than one poor heart could take
I thought I could love you just a little
But that was my mistake
I didn't know I had enough heart left to break

Lead

I've bet my heart on love
Time and time again
And if they crown a heartbroke fool
I think I could win
I thought I'd lost all feeling in this calloused heart of mine
Then you came along
And broke it one more time

(chorus)

I didn't know I had enough heart left to break
I thought I'd had more hurt than one poor heart could take
I thought I could love you just a little
But that was my mistake
I didn't know I had enough heart left to break
I didn't know I had enough heart left to break

Gettin' On with Gettin' Over

written by: Kim Carson

I thought we had a love like no other
I opened up my heart so true
It caught me by surprise you had another
And I couldn't stop crying over you

Then you came back begging me for one more chance
Said you realized I was the one for you
Now all I'm getting is the same old song and dance
And I'm done, fiddlin' round with you

(chorus)

There'll be no looking back over my shoulder
I know this time we're really through
It's tough getting over the fact that we're over
Time to get on with getting over you.

(lead)

I can't believe I thought that we could try again
I've never played the fool for anyone
Now you can bet I'm looking for a better man
Believe me Hun
When I'm done, I'm done

I'm done with all your cheating and your lying
I'm better off without you I've been told
Now I know what you're selling babe, and I'm not buying
Go on peddle that show on down the road

(chorus)

There'll be no looking back over my shoulder
I know this time we're really through
It's tough getting over the fact that we're over
Time to get on with getting over you.

There'll be no looking back over my shoulder
I know this time we're really through
It's tough getting over the fact that we're over
Time to get on with getting over you.

Maybe my Baby

written by: Kim Carson

Maybe my baby's not my baby anymore
He just don't seem to look at me the way he did before
They say a woman always knows but I just can't be sure
Maybe my baby's not my baby anymore.

He used to look at me like I was all that mattered
He used to think of me like I could do no wrong
He used to hold me close like he couldn't get close enough
He used to tap his toes and sing along to all my songs
But now his eyes don't sparkle for me anymore
Seems like his mind is somewhere else
And I think he's whistling a different tune
I just gotta ask myself

(chorus)

If Maybe my baby's not my baby anymore
He just don't seem to look at me the way he did before
They say a woman always knows but I just can't be sure
Maybe my baby's not my baby anymore.

(lead)

Now I'm no fool but I play along like I haven't noticed
I never thought that he'd be a cheating kind of man
I'll just give him some slack to go hang himself or
He might just come back 'round again

(chorus)

Oh maybe my baby's not my baby anymore
He just don't seem to look at me the way he did before
They say a woman always knows but I just can't be sure
Maybe my baby's not my baby anymore.

Out in California

written by Kim Carson

I should be out in California right now that's where I ought to be
I should be out in California right now not this bar in New Orleans
I want to go, I love him so
So much more than it seems

I should be out in California right now
I should be that man's wife
But I moved him aside with this guitar
And it's not a half bad life
Either way I win, either way I lose
I gotta give up something good
No matter what I choose
I should be out in California right now
Ooh, hoo

I should be out in California right now that's where I ought to be
I should be out in California right now that's where I ought to be
If I'm gonna find a true love
this would be the one to last
But I can't ride two horses with just one ass
I should be out in California right now
Yeah, yes

Lead

I should be out in California right now
and give up the life I know
I gotta leave my home and friends behind,
I'm just trying to find the money to go
Well I didn't find it fast enough, now he won't take my call
I guess he found him someone else
He didn't love me after all
I should be out in California right now
No, no, no.

I should be out in California right now that's where I ought to be
I should be out in California right now that's where I ought to be
I think about him night and day
But I bet ya he don't ever think of me

Shine

written by: Johnny Falstaff

I want to shine a little light
Shine just a little light down
Down to your heart
When you feel a little down
Cause when you smile me
Smile me just a little smile
You make my life shine, shine, shine a little while

You make it easy, easy to love you
What a lovely world in which we live
You make it easy, easy to kiss you
Now I want to give you all I have to give

I want to shine a little light
Shine just a little light down
Down to your heart
When you feel a little down
Cause when you smile me
Smile me just a little smile
You make my life shine, shine, shine a little while
