

DOUG ADKINS, Montana, USA

Doug Adkins, the artist that brought *Whiskey Salesman* and *Window Shoppin'* to you - releases his 8th CD and newest *Masterpiece*....

“Yippee ii Yippee aa”

Excerpt from an Interview with Doug Adkins in the Bismarck Tribune, Bismarck North Dakota

...Country Music is still the #1 selling music in the United States! It is that way because artists provide great music for the fans and create excitement at concerts! “The only way to keep Country Music alive and healthy is for the artists to record great music and perform great shows!”

While Country Fans in Europe are talking about the death of Country Music! Doug Adkins, “*The Whiskey Salesman*,” is planning a *Country Music Revival!* With his popular tour band Stars’n’Bars and new CD, a Doug Adkins’ concert will feature his classic songs “Whiskey Salesman” and “Window Shoppin” along with songs from the New CD, and of course a great selection of traditional and modern Country songs (everything from Merle Haggard to Johnny Cash to Alan Jackson and more..), keeping your audience dancing and singing along!

Adkins states, “I’m at a point in my life where the most important thing is to give the fans a CD full of music they’ll love, and a great live show... every night!”

A great CD begins with great songs.. Adkins states “I wrote 38 songs since my last studio CD, it was difficult to choose only 12. Next, you call guitar extraordinaire Brent Mason, steel guitar legend Paul Franklin and superstar drummer/producer Lonnie Wilson. These musicians have defined the style of Country Music in Nashville for the last twenty years, and once again created a classic CD and gave their absolute best for Doug’s newest work!

So...at a time when everyone is talking about the death of Country Music in Europe, Doug Adkins is planning the REVIVAL!!! This CD has it all! Traditional Country, Western Swing, a Classic Waltz, a nice Bump-n-Grind Cha Cha...

CD Title “Yippee ii Yippee aa”
